

CAMPUS MASTER PLAN

University of Dayton

Focus Group

Focus Group 5

UDRI, School of Engineering, College of Arts and Sciences (Science focus)

A focus group of nine representatives from UDRI, the School of Engineering, and the College of Arts and Sciences met with Burt Hill on February 6, 2007. The group discussed the current master planning process and provided thoughts on the future development of the UD campus. Through a visual listening exercise, the group determined what they like about campus and what they'd like to change.

This group's concerns included:

- Loss of open space, urbanization of campus
- River as part of campus
- Bicycle/pedestrian circulation between river and campus
- Collaboration between science and engineering departments
- Location of UDRI
- Parking
- Outdoor eating/meeting spaces
