

# CAMPUS MASTER PLAN

## University of Dayton

### Schedule

Burt Hill and the University of Dayton began working collaboratively in June 2006 to kick-off the UD master plan development. The Campus Master Plan Steering Committee was formed and continues to assist in the process of learning about the University, its Marianist mission, and its connections with the surrounding community.

Information gathered through monthly meetings, interviews, and focus groups guides Burt Hill and the Steering Committee throughout the analytical process leading to a draft plan. The draft plan will be reviewed before a final plan is generated with recommendations for the future development of campus.
